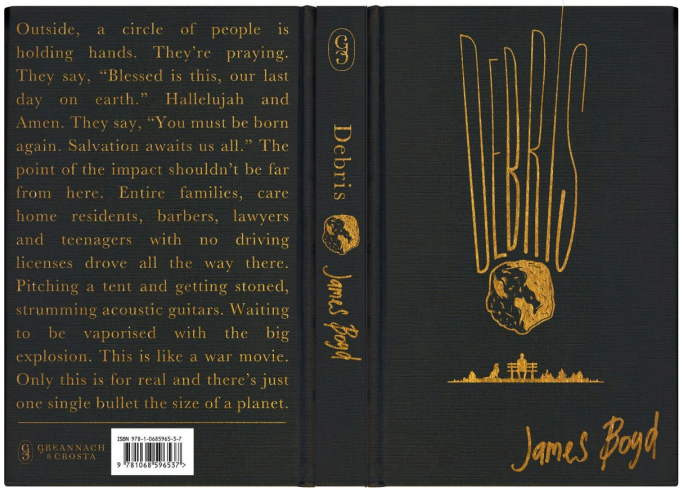
DEBRIS

A collection of strange little failures

James Boyd



Debris is a collection of twelve short stories by Scottish author James Boyd.

It's about the odd things in everyday life. The things you don't notice, and perhaps would rather not.

The bottle of gin found in the office bathroom. The radio transmitter a young boy uses to talk to his friend who's visiting the moon. The bathtub crashing down in the middle of the road. An ambulance rushing someone to hospital because of a bee sting. The endless wait at a funeral home while trying to find the right coffin.

You know, the usual things you find yourself doing but would rather not.
